

Position: Treatment planning radiographer/dosimetrist/Physicist (6-12 months)

Institution: Radiotherapy Department, Basingstoke & North Hampshire Hospital

Location: Basingstoke, UK

Application closes: open, until position filled

We are seeking a full-time (37.5 hours per week) radiotherapy physicist or dosimetrist with experience in VMAT planning with the MONACO treatment planning system, to assist us for a period of 6-12 months, to start as soon as possible, due to staff sickness.

We are a single linac centre (Elekta Agility), with Prosoma, MONACO, MOSAIQ, RADCALC, treating prostate VMAT, breast, and palliative patients.

Salary will be according to the NHS Agenda for Change pay scale band 7/8A in line with the applicants experience (£31696 to £48514 p.a., gross, including contributory pension).

To discuss this position, please contact Dr Abiodun Adeyemi, Head of Radiotherapy Physics on +44(0) 1256315012 / +44 (0) 7917 267423 or email adeyemi.abiodun@hhft.nhs.uk
