Cusumano	Observer	Italy
Placidi	Observer	Italy
Rampado	Observer	Italy
Hernandez	Observer	Netherlands
Ivashchenko	Observer	Netherlands
Ratan	Observer	Trinidad & Tobago
Karhan	Observer	Czech republic

According to EFOMP procedures, which are included in an EFOMP manual the selection is based on fulfilling specific criteria.

First of all, the balanced geographical distribution of members has to be guaranteed: the WG needs to be widely representative of the European community. As for the selection, the country in which the applicant works is considered.

When two or more applications are received from the same country, the selection is made considering the experience in the activities for which the WG is created. Evaluation is based on CVs included in applications.

The number of **members** is limited to 10 (minimum 5).

Consultants have also an active role in the group, but they are not eligible for reimbursement in case the WG is financially supported by EFOMP. The selection of consultants is based on CVs (with the limitation of 2 consultants per country).

Observers have a less active role but they are required to attend at least one teleconference meeting and give comments/suggestion on the activities of the WG. The number of observers is not limited.

Thank you for your cooperation.

Yolanda Prezado
Chair of the Scientific committee
