

MRC/UoE Cross-Disciplinary Post-Doctoral Fellowships

The 2019 recruitment round for the Medical Research Council/University of Edinburgh Cross-Disciplinary Post-Doctoral Fellowships (XDF) scheme is open now - application deadline 29 March 2019. These prestigious fellowships are aimed at people who have acquired strong data analytical and/or computational skills from their doctoral studies in physics, mathematics, computer science, engineering, or similar, and would like to undergo training to become leaders in Quantitative Biomedicine.

You can learn more about the scheme on the XDF Programme website (<http://www.xdf.training>) and the application process can be completed from the following link (also accessible from the XDF Programme website):
